

Extrutech Plastics, Inc. Announces Four New Products being added in 2016

Manitowoc, WI, February 18, 2016 - Extrutech Plastics, Inc. has added four new innovative products to their ever growing product offering. These products include the EFS-8, Extrutech Form System for 8", 10", and 12" concrete walls; the EFSI-8, Extrutech Form System for Insulated concrete walls; the P224 Wall Panel made for interior partition walls and clean rooms; and the P645 Angle FORM connector for the construction of concrete circular and oval storage tanks and above or below ground swimming pools.

These products enhance the already large product offering of Extrutech Plastics for the various construction markets including the Food Processing, Dairy & Agricultural, Car Wash & Truck Wash, and Clean Room Industries. Our stable of products already include 12", 16", and 24" wall and ceiling panels, suspended ceiling panels, clean rooms, partition walls, doors, concrete forms, and various trims and cellular boards.

Since 1992 Extrutech Plastics has specialized in the manufacture of high quality, water proof building components in Manitowoc Wisconsin. Extrutech is a certified ISO 9001-2008 QMS manufacturer and a U.S. Government supplier. All products are made in the USA by Americans.
