

# Extrutech Stay-in-Place Concrete FORM® System

## FORM® Panel Dairy Projects

US Patent #8,677,713  
Canadian Patent #2,833,490

Extrutech FORM® System is a “stay-in-place” concrete form for poured walls. This system is a quick set-up, pre-cut system that provides a smooth, non-porous, easy-to-clean, pre-finished, concrete filled, water-proof wall. Panels form structural load-bearing walls in thicknesses of 6", 8" and 12". Insulated panels also are available.

Since 1992
