

# Extrutech Wall Panels

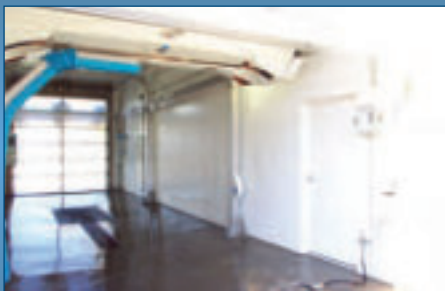

*Brighten Your Car Wash Bays with Panels from EXTRUTECH*

Have Happy Customers! Make More Money!

These highly-reflective panels are ideal for high-moisture areas because they are **water-proof!** Panels install quickly and easily, with no exposed fasteners. Available in widths of 12- and 24-inches and cut to length from 4 to 20 feet, to fit your building. These panels are stain-resistant, low-maintenance and easy to clean (when required). Use in self-serves, automatics and tunnels. Colors available.

Wall and Ceiling panels meet  
ASTM E84-05 and CAN/ULC S102.2-3 Class A  
rating for smoke and fire.

## P1300 Flat Panel

# 12-inch Flat Panel For Ceilings and Walls

**P1300 Flat Panels** have a smooth, glossy surface that dramatically improves overall reflective lighting. P1300 Panels are 12-inches wide and available in custom lengths to fit your project requirements. Flat panels create a great looking ceiling for areas that are corrosive or high in moisture. Many area applications benefit from the use of P1300 panels in that these panels are easy to clean while maintaining a fresh appearance.

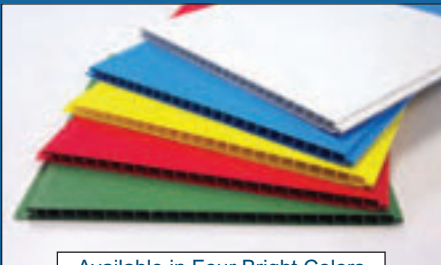

**P1300 12-inch Flat Panels and P2400 24-inch panels** are extruded from 100% virgin, exterior-grade PVC. Both panel sizes have a tongue-and-groove design with a nailing fin along one side that makes installation quick and easy – with no exposed fasteners.

For instructions on installation, visit [www.epiplastics.com](http://www.epiplastics.com). All panels are cut to customers' requested length – up to 20 feet. Panels are easy to clean and durable – never need painting and will not rot or rust. Panels are 100% recyclable (green) for the environment and do not support mold or mildew per ASTM D3273 and D3274.

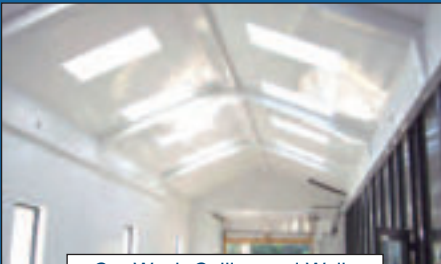

CSI-Master Format# 06600 (06 64 00). (P1300, P2400) Ten year warranty. Meets ASTM E84-05 and CAN/ULC S102.2-03 Class A for smoke and fire.
