

PERFECT FOR MILKING PARLOR/ DAIRY WALLS AND CEILINGS

POLY BOARD[®] DAIRY PANELS

By Extrutech Plastics, Inc.

Corrosion-Proof Wall and Ceiling Panels

Half the Seams! • Install in Half the Time! • Half the Fasteners!

EXTRUTECH PLASTICS SANITARY PANELS

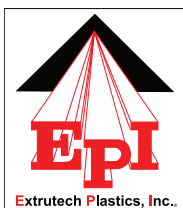

provide smooth, bright white, non-porous, chemical-resistant, easily cleanable surfaces – ideal for high-moisture areas. Panels feature a tongue-and-groove design, with a nailing fin along one side that makes installation quick and easy, with no exposed fasteners. All panels are cut to the inch, to the customers' requested length, from 4 - 20 feet – saving costs in material, time, and labor. Panels are durable, never need paint and will not rot or rust. Extrutech Plastics, Inc. has been pioneering innovative solutions for our Dairy and Food Processing customers since 1992. Our great looking, cost-effective PVC panels meet ASTM E84-08 and CAN/ULC S102.2-03 Class A for smoke and flame, and are USDA and CFIA approved. Perfect for moisture laden environments where sanitation and cleanliness is critical!

WALL AND CEILING PANELS

P1300 12" Flat Panel

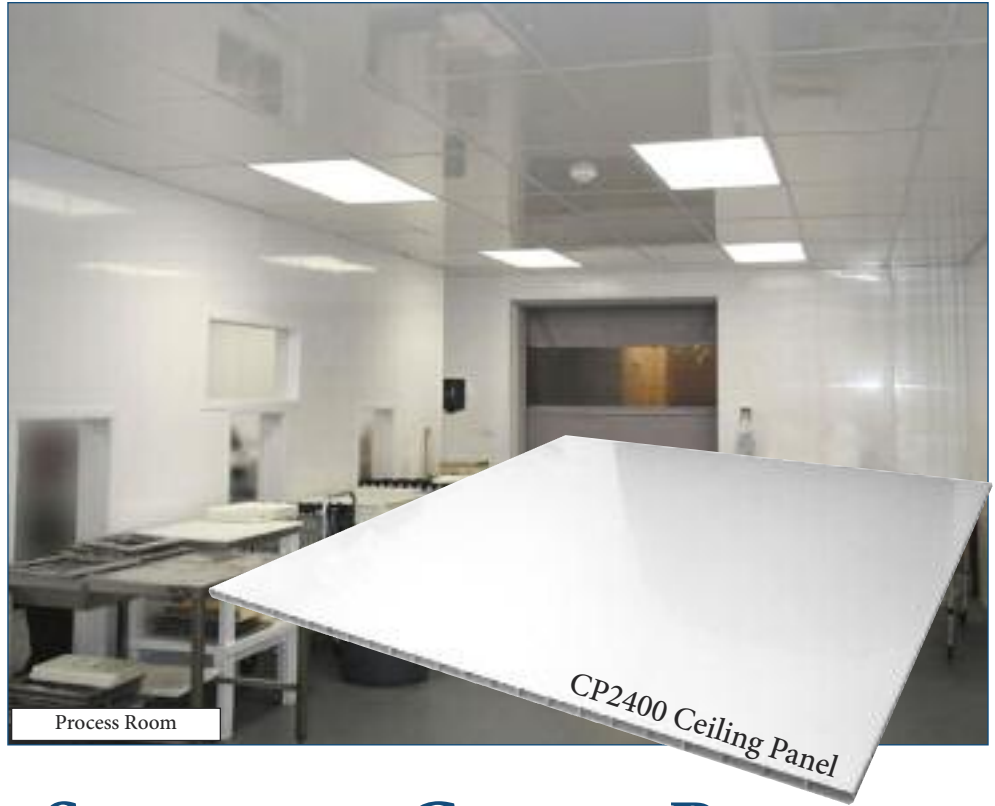

Poly Board® Wall and Ceiling Panels have a smooth, non-porous, white reflective surface and are available in 12" and 24" widths. The 12" P1300 Panel can be used on walls and ceilings, while the 24" P2400 Panel is recommended for great wall spans. Both panels have a tongue-and-groove design with a hidden nailing fin along one side that makes installation quick and easy, with no exposed fasteners, creating a great looking, easy-to-clean wall for years to come. Both panels have a ten year warranty and are Class A rated for smoke and flame.

SUSPENDED CEILING PANELS

The Extrutech Suspended Ceiling System consists of the Extrutech CP2400 -24" wide sanitary plastic ceiling panel and your choice of a fiberglass or vinyl grid system which can be used for new construction or retrofit. All components are water and corrosion proof, and will not rot, rust, or delaminate. The CP2400 ceiling panel has a smooth, non-porous, white reflective surface and can be configured with 2', 4', 6', 8', 10', or 12' long ceiling panels. The system is Class "A" rated under the ASTM-E84 standard for fire and smoke. The fiberglass grid is seismic approved by ICC. The Extrutech ceiling system is washable, very easy to clean and comes with a full 10 year warranty.

Made in the USA.

The Extrutech Panels and Ceiling System are USDA and CFIA approved. Uses include Food Processing Plants, Cheese and Milk Plants, Clean Rooms, and other facilities where sanitation and cleanliness is critical.

EXTRUCRETE™ PANELS

ExtruCrete™ tilt-up panels create a superior sanitary surface that is designed for durability and cleanliness, combining the strength of concrete and the easy-to-clean finish of Extrutech Poly Board® panels. This creates a non-porous, prefinished, precast, structural panel that reduces the finishing and installation time of your construction project. The end result is a bright white, sanitary, easy-to-clean wall that will make everyone's day brighter.

Dairy Parlor with ExtruCrete Wall Panels

Recommended uses:

For any area that requires easy to clean concrete structural walls, such as:

- Dairy Barns
- Milking Parlors
- Car Washes
- Cheese Plants
- Food Processing
- Clean Rooms
- Bottling Plants
- Cold Storage
- Laboratories

Advantages:

- Available in a bright white, high gloss, hard surface
- For use in high moisture areas where corrosion may be a problem
- Low maintenance, easy to clean with high pressure washer
- Plastic will not delaminate
- Brightens the interior of any building
- Resists mold, mildew, bacteria growth
- Panels will not rust, rot, or flake
- Cleans easily – low maintenance
- Water-proof, corrosion-proof
- Termite-resistant
- Never needs paint
- Fewer seams
- ASTM-Class A Building Panel
- Reduces construction time and labor cost
- For tilt-up and precast construction
